

# Drilling Supervisor

Ross DK is a successful well management company. As part of our continued expansion, we are looking to hire a **drilling supervisor** for our team. Your primary focus will be to ensure that Ross DK continues to be a one-stop shop for services related to well planning, engineering, construction, and execution. Furthermore, you will work with intervention, work-overs, and plug & abandonment.

Ross DK operates primarily within Oil & Gas and Geothermal energy. We are involved in a variety of projects from challenging HPHT oil&gas wells offshore, high inclination geothermal wells onshore to complex work-overs in wells displaying intermittent characteristics.

Work will primarily be within Northern Europe, and travel and rotation must be expected.

## Your responsibilities:

- Day-to-day supervision of well activities
- Management of operations in compliance with standards, plans, processes, and legislation
- Focal point for issues relating to HSE, work management, SIMOPS and contingent well abnormalities as they occur
- Ensure compliance with between operations and client's management systems
- Enforce risk assessment and mitigating activities, and communication on the importance to stay abreast
- Ensure pollution control activities are maintained, and that contingency measure is communicated, organised and implemented
- Supervision of timing and budget
- Supervision and coaching of personnel
- Review of well & drilling programs
- Preparation and review of well reporting (operations, equipment and performance) & lessons learned
- Liaison to project stakeholders

## Your qualifications:

- Relevant education
- Minimum 12 years' experience in industry, and 5 years as drilling supervisor
- Knowledge of regulations and advisory for North Sea operations
- Offshore experience with modern offshore rigs/ships
- Offshore survival and health certificates
- IWCF certificate, L4 (well control)
- Fluent command of English (orally and written)

## Personal skills:

- Independent, active and dynamic
- Focused on performance and deliveries
- Creative, inquisitive and responsible
- Team oriented
- See solutions where others see problems
- Proactive with regards to HSSE&Q

We look forward to hearing from you

## About Ross DK A/S

Ross DK is specialised in engineering, project and well management, to the oil & gas and geothermal industries. We provide a total life-cycle service from project inception through design and engineering to drilling and supervising wells.

We are not your average Joes .. We provide our customers with in-depth knowledge of the processes, and we have started a green energy development company to emphasise our commitment to showing results. A direct derivative is our broad interface to investment & financing, politicians, regulators and agencies and to like-minded companies sharing our passions.

We also have a company hobby – we have a small racing team, which race classic cars.

In short, we are practitioners.
